

Vision or Just a Good Idea

Brand: Heartbeat Academy
Product Code: 159

Price: \$9.95

Short Description

This one hour recorded webinar will help you learn the difference between vision and just a good idea.

Description

Successful planning, whether for yourself, your organization, or your ministry requires first arriving at or discerning a vision, but how do you know if what you have arrived at is a God-given vision or just a good idea?

Learning the difference between vision and an idea can be the difference between success or failure. This session will help participants to recognize the difference between the two and using the story of Nehemiah will also provide action steps to help you go from thought to implementation to success.
