Short Description

Presented by Christa Brown, BSN, RN, LAS

This training offers 1.0 contact hours for nurses who meet all requirements. Heartbeat International is an approved provider through the California Board of Nursing, Provider Number 16061.

Description

In every pregnancy, there are two patients: two lives, two heartbeats, and two sets of DNAs. Pre-abortion screening enables PHMCs to care for and protect both patients. Pregnancy help medical clinics (PHMCs) are in a unique position to offer no-cost medical assessments, safety plans and personal support. Offering a pre-abortion screening is one way to empower women with information about the details of their pregnancies and the choices available to them.
