

When You're In Over Your Head

Brand: Heartbeat Academy
Product Code: 750

Price: \$14.95

Short Description

This is a presentation for “people helpers” - those who minister to the public. The goal is to help these helpers recognize symptoms that indicate they are in over their heads. It covers the disorders and entanglements they might face in this capacity and what to do if they are faced with this. It is not to diagnose or to teach clinical research but rather for them to see the warning signs and extricate themselves if necessary. Presented by Dinah Monahan
