Description

In the wake of the monumental overturning of Roe v. Wade, America is at a pivotal crossroads in the fight to protect life. As more women seek support from pregnancy centers like yours, the opportunity to serve and share the Gospel has never been greater. At the same time, pregnancy centers are also experiencing increasing legal threats. Now more than ever before, it is critical for you to proactively protect your center's right to operate according to its biblically held beliefs.

Join the Alliance Defending Freedom (ADF) team for an urgent discussion on the evolving cultural and legal challenges ministries face today. This webinar will equip you with:

- An understanding of the threats posed by the courts, administrative agencies, and legislative bodies
- Knowledge of the protections available under the law
- Proactive steps you can take to minimize risks and safeguard your pregnancy center's religious freedom
