

Key Practices of Outstanding Pregnancy Help Organizations

Brand: Heartbeat Academy
Product Code: 147

Price: \$14.95

Description

How is it possible that a center raises over \$100,000 with their Walk for Life? How can one organization that directly operates a group of clinics, serve 25,000 patients a year? Another group that has four centers saves 1,000 babies (client turnarounds) each year. What are they doing that brings these results?

In this webinar, participants learn ways to increase appointments, raise more funds, and reach more women. Some practices are based on the latest marketing strategies, and others relate to outreach in areas of your community and churches that are so far untouched.
